

MODEL #01377

Flex Station (24" x 60")

DESIGN:

The Flex Station table is truly flexible, with an oversized top that provides for today's project learning environments.

MATERIALS:

The frame is attached to the pre-drilled holes in the top with (12) #10 x 3/4" screws through a 3"w x 18"l 14 gauge steel mounting plate. The mounting plate is welded to (2) 1" square 16 gauge steel Y-shaped tubes which is welded to a 1 1/4" x 2" 14 gauge vertical leg support. The legs adjust in height from 24" to 32" in 1" increments. The adjustment for each leg is secured with (2) 3 3/4" -16 x .675" Allen screws. All open ends on the 16 gauge tubing will be capped with color matched plastic end caps. The bases have a color matched lockable end cap/glide combination that resists tampering. The right and left leg both include Smith System patented backpack peg allowing for either inside or outside positioning. The 18-gauge steel wire management tray mounts under the work surface and hinges off the 10"h 16-gauge steel modesty panel. Cables drop through the work surface cut outs. Both the frame and legs will have a powder coat finish. With optional 3 or 4 inch casters.
