## 17200 Wire Book Box Installation Instructions

**10 X**

10 x 3/4" Truss Head Screw

Wire Book Box (1)

Step 1: Place table top on a smooth, clean surface with the bottom facing up.

Step 2: Next, place the open front of the book box 1" from the edge of the table and centered between the legs.

Step 3: Use the screw tabs on the book box as a template to drill 3/32" pilot holes, being careful not to drill through the top.

Step 4: Insert the included #10 x 3/4" screws through the mounting tabs into the pilot holes. Tighten the screws. Your table is now ready for use.
