

MODEL #17770, 17771

Husky Activity Table Legs

DESIGN:

The Husky is a solid look, which is perfect for elementary and high school environments. The design is installer friendly, thanks to our Easy-On-Bracket that mounts each leg with only 1 screw each.

MATERIALS:

The upper leg is made of a 17-gauge 1 3/4" diameter steel tubes, protected with a durable powder coat finish that matches the color of the nylon cap. Choose from 8 colors that will bring excitement to the classroom. The 1/4" "V" support brace is welded to the top leg and 16-gauge mounting plate, which adds stability and strength. The easy-on-brackets are mounted to the desktop for easy assembly, requiring only 1 screw per leg for secure assembly.

The chrome-plated lower leg is made out of 13-gauge 1 1/2" diameter tube to resist scuffing and is complimented by a durable nylon cap matching the powder coat finish. The telescoping tube leg adjusts in 1" increments. The glide is a sock type that slides over the outside of the leg. The glide is made of a glass-filled nylon that assures durability. The glide resists rust, stains and scratches.

PRODUCT SPECIFICATIONS:
