Assembly Instructions

Step 1: The leg stems are inserted into each of the 4 sockets of the Plastic Box. The leg stem has a metal key which extends outward slightly from the leg (Shown in Picture #1). The key must line up with the slot on the plastic box.

****This step is crucial to leg installation.****

Step 2: With the leg stem aligned to the hole as provided in Step, the leg must be hammered into place. Use a brace between the leg and the impact of the hammer to protect the leg tube.

(A wood block is shown.) (See Picture #2)

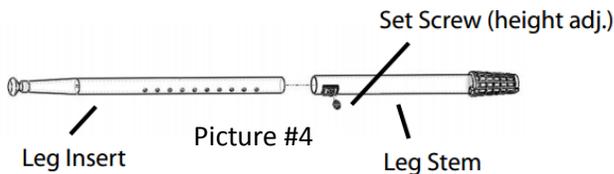

Picture #1

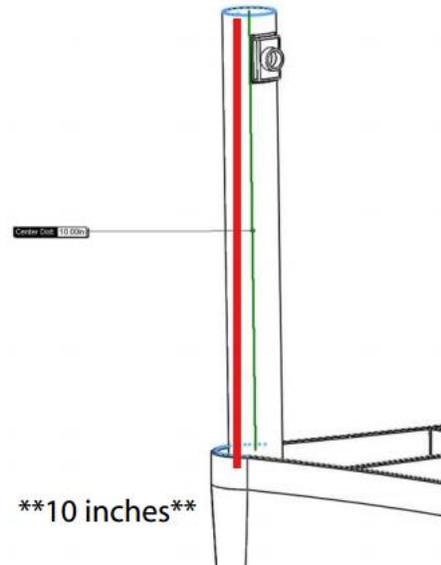

Picture #2

Step 3: When the leg is fully set into place, the measurement from the box to the top of the leg stem is 10 inches.

Picture #4

Picture #3

With all 4 leg stems hammered into place, reassemble the leg Insert into the leg stem, and use the set screws to set the height. (as shown in Picture #4) Your Table is now ready for use.
