Cable ports in the upper leg create networking options from station to station and in the lower leg cable ports provide routing to the floor. The **BASE** is 16-gauge steel tube 1 3/4" x 2" nylon caps protect the feet. The legs also have 1" adjusting leveling glides.

The **MODESTY PANEL** is made from 18-gauge steel and features a built in raceway and cable ports in the upper corners. The panel connects to the worksurface and legs. Acrobat workstations can go mobile with optional dual-wheel casters:
