26685	29.83"	26.75"	47.13"	48"	44.5"	70	119 lbs.

OVERVIEW:

Focusing on studying can be a challenge for children of all ages. Library carrels can be a great solution to this problem and are perfect for libraries. By just reversing the back panel you can switch from desk height to kiosk height.

MATERIALS:

The 1 1/4" thick work surface consists of 45 lb. density particle board core with a .030" high-pressure laminated surface and a .020" melamine backer sheet. The work surface is finished on the edge with a t-mold edge of your choice that is mechanically fastened every 6 to 8 inches to assure a long lasting fit. The top is pre-drilled for ease of installation. The 1 1/4" thick side panels consist of the same 45 lb. density particle board core, .030" high-pressure laminate on both sides and the edge is wrapped with t-mold. The side panels are finished with a 16-gauge 1 3/4" x 2" steel foot with nylon end caps and feature 1" adjustable leveling glides that provide stability on uneven floors. The back panel is an 18-gauge steel panel and is reversible to allow the user to set their work surface at either a 28" desk height for sitting or a 36" kiosk height for standing. For added strength the side panels are tied together with a 14-gauge steel tube cross bar at the foot.

Acrobat Carrel Top and Edge Choices

- 1 1/4" Tops
- CHOICE 1** 3/8" Bumper T-Mold
CHOICE 1 - 1 1/4" top with Bumper T-Mold no letter to follow Model No.
 - CHOICE 2** 4mm T-Mold
CHOICE 2 - 1 1/4" top with 4mm T-Mold **D** to follow Model No.
