PLT Fixed-height leg set is standard.

OVERVIEW:

UXL Nest and Fold tables provide a stable, spacious work surface and a contemporary appearance. They offer added utility when not in use through their easy mobility and compact storage. As a part of an integrated line of seating and tables, the Nest and Fold series lets you maintain a consistent design scheme throughout your building or facility.
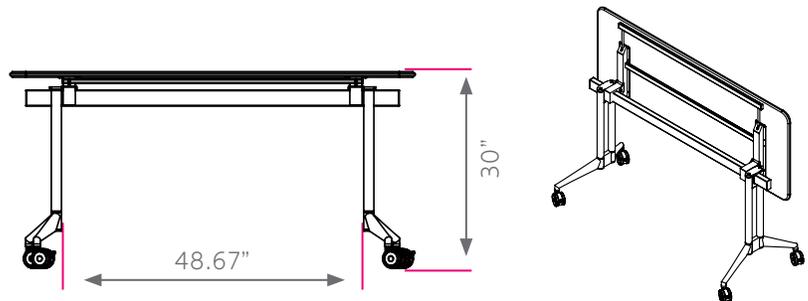

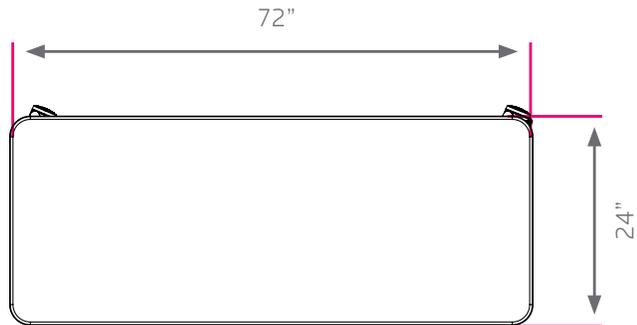

MATERIALS:

The work surface consists of a 45 lb density particle board core with a 0,030" high pressure laminated surface and a 0.020" backer sheet. The edge of the work surface features t-mold that is stapled to the underside of the work surface every 6" - 8". The table top is pre-drilled to attach legs using included fasteners.

The main frame is made of 2" diameter x 16-gauge round cold-rolled tubular steel that is welded to an ingenious mechanism that allows the table top to fold down and back into place easily. The substantial legs are made of 1.5" diameter x 14-gauge twin tube cold-rolled steel.
