Interchange® Activity Tables

Interchange 36" Deep Rectangle Activity Tables

MODEL#: 04111, 04112, 04113, 04114

OVERVIEW

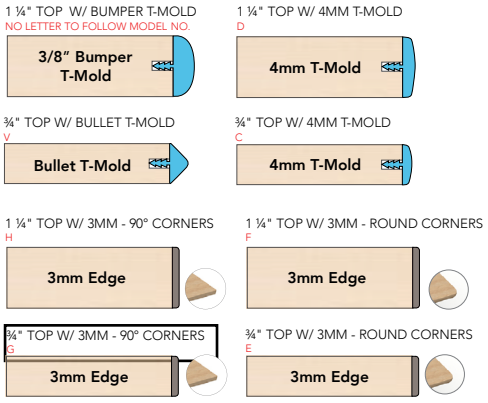

The Interchange Activity Tables have a rejuvenated look with our Interchange Ellipse leg sets. The tables offer a stable work surface for the classroom. Interchange Activity tables match the look and style of Interchange student desks for a uniform look in the classroom.

MATERIALS

The leg sets are integrated together with the frame member and fully welded into pairs. Each Leg Set is made of 16 gauge elliptical stems and inserts, 14 gauge rectangular tubing for the frame members and 12 gauge plates to attach the Work Surface. The Leg Set pair is joined together by a 2" x 3" C-Channel Support Brace with fully welded end plates. The Leg Sets and Support Channel are joined together by low profile aesthetically appealing Furniture Connector Bolts that mechanically clamp the material together providing a very strong and highly durable connection. Leg Ends are protected with a textured cap and contain a securely captured leveling glide for fine tuning adjustment on uneven floors. The entire Leg Set and Support Channel have a full and long lasting powder coat finish. Tables meet or exceed ANSI/BIFMA standards for performance and durability to ensure they maintain their integrity in the most challenging environments.

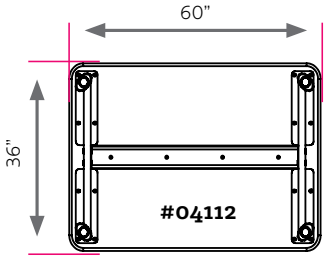

Table height adjusts from 22" - 34" in 1" increments. Adjustment for each leg is secured by one 3/8" set screws. The work surface is made of 1 1/4" or 3/4" thick, high-density particle board core double sided with a 0.030"high-pressure laminate and press-fit bumper edge that is mechanically fastened every 6"-8". Tops are pre-drilled for ease of installation and include high-performance Hi-Low Screws for increased pull-out resistance.

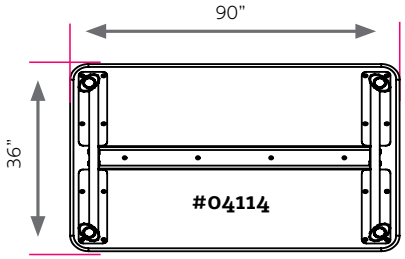

TOP AND EDGE OPTIONS

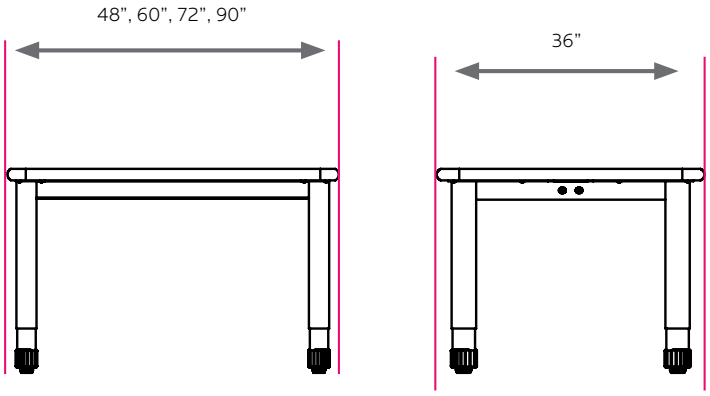

DIMENSIONS

Model	Description	D"	W"	H"	WT
04111	Interchange 36x48 Rectangle Activity Table	36	48	22-34	104
04112	Interchange 36x60 Rectangle Activity Table	36	60	22-34	120
