

OVERVIEW

Create a dynamic workspace for groups of up to 6 with Interchange Crescent tables. The 72" Crescent accommodates two students per desk - 3 desks create a 6 student 'pod.'

MATERIALS

The work surface consists of a 45 lb density particle board core with a 0.030" high pressure laminated surface and a 0.020" melamine backer sheet. The edge of the work surface features a t-mold edge that is mechanically fastened to the underside of the work surface every 6 to 8 inches to assure a long lasting fit. 1 1/4" or 3/4" thick top.

The ellipse legs are made out of 1" x 2" 14-gauge oval steel tubing which is protected with a durable powder coat finish that matches the color of the nylon cap. The legs are welded to a square brace and a plate for added surface contact and weight distribution. Includes 1" adjustable leveling glides with locking stops to provide stability on uneven floors.
