PLANNER LAB CORNER STATION

DIMENSIONS + FREIGHT

MODEL #	D"	W"	H"	F.C.	CUBE	WEIGHT
24600	30"	48"	22" - 32"	70	5.8	114 lbs.

OVERVIEW

Planner Lab corner stations allow your computer lab to wrap into the corners of your classroom. The desk is built with Planner™ strength and stability. Manages cables while providing a snug fit against both walls.

The WORK SURFACE consists of a 1 1/4" thick, 45 lb density particle board core with a 0.030" high pressure laminated surface and a 0.020" backer sheet. The edge of the work surface features T-mold that is stapled to the underside of the work surface every 6"-8". The LEG SYSTEM is attached to the pre-drilled holes in the top with (12) #10 x 3/4" screws through a 3 1/8"W x 18"L 14-gauge steel mounting plate. The mounting plate is welded to (2) 1 1/4" square 14-gauge steel tube legs which is welded to a 1" square 14-gauge steel tube cross bar. The leg inserts are 1" square 14-gauge steel tube and adjust in height from 22" to 32" in 1" increments. The adjustment for each leg is secured with (2) 3/8" - 16 x .675" Allen screws. The right and left leg both include the Smith System patented BACKPACK PEG allowing for either inside or outside positioning. The legs are tied together for added strength with a 6" high 18-gauge steel panel and four connector bolts. Legs have 1" adjusting leveling glides. A WIRE BASKET that mounts under the work surface is included for wire management.
