The End Panels consist of 20-gauge steel full height panels welded to 1" square 18-gauge steel tubing Frame with formed in handles that radius for added comfort and ease of movement. The Shelves are constructed of 20-gauge steel double sided sloping shelves that are 34" long and 7 3/4" deep on each side and a 6" high back. The shelves sport a 12 3/4" clearance between shelves and are welded to the frames and end panels of the Book Truck.
