

planner studio

30" x 60" rectangle w/ casters

MODEL #: 25256F

PLANNER STUDIO, 30" X 60"

OVERVIEW

The Planner is ideal for all kinds of classroom activities. The heavy duty construction contributes to a sturdy work surface that can hold 400 pounds. Planner Studio tables are shipped ready to assemble.

The 1 1/4" thick WORK SURFACE consists of a 45 lb density particle board core with a .030" high pressure laminated surface and a .020" melamine backer sheet. The edge of the work surface features a 3mm flat self edge.

The FRAME consists of two fully welded leg segments and a center support channel. The legs are attached to the pre-drilled holes in the top with #10 x 5/8" wood screws through a 14-gauge steel mounting plate. The mounting plate is welded to (2) 60mm x 60mm x 2mm 14-gauge steel square tube legs. The center support channel is 14-gauge steel, with 14-gauge steel end plates for maximum stability. The center support channel is connected to the legs by (3) connector bolts on each side, for a total of (6).

4" Casters are standard on Model 25256f.
