

# cascade maker table

48" x 48" w/ 4" casters, totes & shelves

MODEL #: 25304F, 25305F

CASCADE MAKER TABLE,  
MODEL #25304F, #25305F

## OVERVIEW

The 1 1/4" thick WORK SURFACE consists of a 45 lb density particle board core with a .030" high pressure laminated surface and a .020" melamine backer sheet. The edge of the work surface features a 3mm flat self edge.

The END PANELS are made of 18-gauge 1" square tubing, welded flush to an 18-gauge end panel. The inside of each end panel is reinforced by 22-gauge hat channels. These hat channels are dual purpose: added strength and for tote rail shelf mounting. The dome top is 18-gauge formed and welded construction, bolted to each end panel and rear panel with a total of 10 machine screw fasteners. The base is a durable 18-gauge steel construction formed and welded to support the entire weight of the unit squarely. Underneath is a heavy welded hat channel reinforcement. The base shelf is attached to both end panels using 4 machine screw fasteners. The Rear Panel is 18-gauge steel reinforced with up to three vertical hat channels. Two grommet holes (a lower and upper) are punched for convenient wire management and electronic storage. Casters are 4" in diameter, all have locks.

The optional DOORS include a secure and reliable locking mechanism, which engages lock rods into the dome top and the base shelf. Doors also come with urethane ergonomic and modern door handles of your color choice. The fully hinged doors articulate 270 degrees, free of obstruction.

## MAKER TABLE EDGE PROFILE:

**F** 3mm Edge 1 1/4" top with 3mm flat edge.  
F to follow Model No.

## LAMINATE: (includes matching 3mm edge)

**WHITEBOARD (FWB)**
