Numbers™ Student Desks and Tables

Numbers Single Student Desk

MODEL#: 02130

OVERVIEW

Numbers desk is a winning answer for creating inspirational classrooms around the world. The desk delivers impressive benefits that add up for students and schools – great value and quality in a compact, sleek design that appeals to all ages. This desk answers the need for value-driven, high-quality classroom solutions with international design appeal. The product specifications is designed to comply with BIFMA, EN, & GB standards for durability, performance and sizing. Together, the chair + desk suite equals a smart solution for students, teachers and facility personnel.

MATERIALS

The leg sets are made of 14 gauge steel circular stems, with the larger tube having a 35 mm outside diameter 2mm wall and 28.6 mm for the smaller leg tubes. Legs have a full, even and long lasting powdercoat finish. In addition, the inner leg tube has a custom insert that make it easy to insert friction stem or threaded adjustable glides, which allows for wheelbarrowing without affecting desk height. Table height adjusts from 22" - 34" in 17.5 mm increments. Optional felt glides and casters are available.

The leg consists of one fully welded segment. Legs have a full, even and long lasting powdercoat finish. To conserve space, the desks have a compact design. Their leg form, coupled with backpack hooks (with felt) on all four legs, allow easy slide-on stacking, three or four desks at a time.

The work surface is made of 1 1/4" thick, high density particle board core, with HP laminate top surface. Tops are pre-drilled for leg set attachment and ease of installation.
