MATERIALS

The leg sets are made of 14 gauge steel circular stems and inserts. Larger tube 28.6mm x 14ga. steel and smaller tube 22mm x 14ga. steel. Standard inserts range from 24.5 to 30 inches; low-range inserts are 18 to 23.5 inches (Low range inserts sold separately). In addition, the inner leg tube can flip 180 degrees between glides or casters (sold separately), which allows for wheelbarrowing without affecting desk height.

The leg consists of two fully welded segments. Legs have a full, even and long lasting powdercoat finish. To conserve space, the desks have a compact design. Their leg form, coupled with backpack hooks (with felt) on all four legs, allow easy slide-on stacking, three or four desks at a time.

The work surface is made of 1 1/4" thick, high density particle board core, with HP Laminate top surface. Tops are pre-drilled for leg set attachment and ease of installation.
