Assembly Instructions

FLOWFORM PLAY – MARKET

Components

ALL WHITE SECTIONS TO BE DISCARDED BY THE END USER
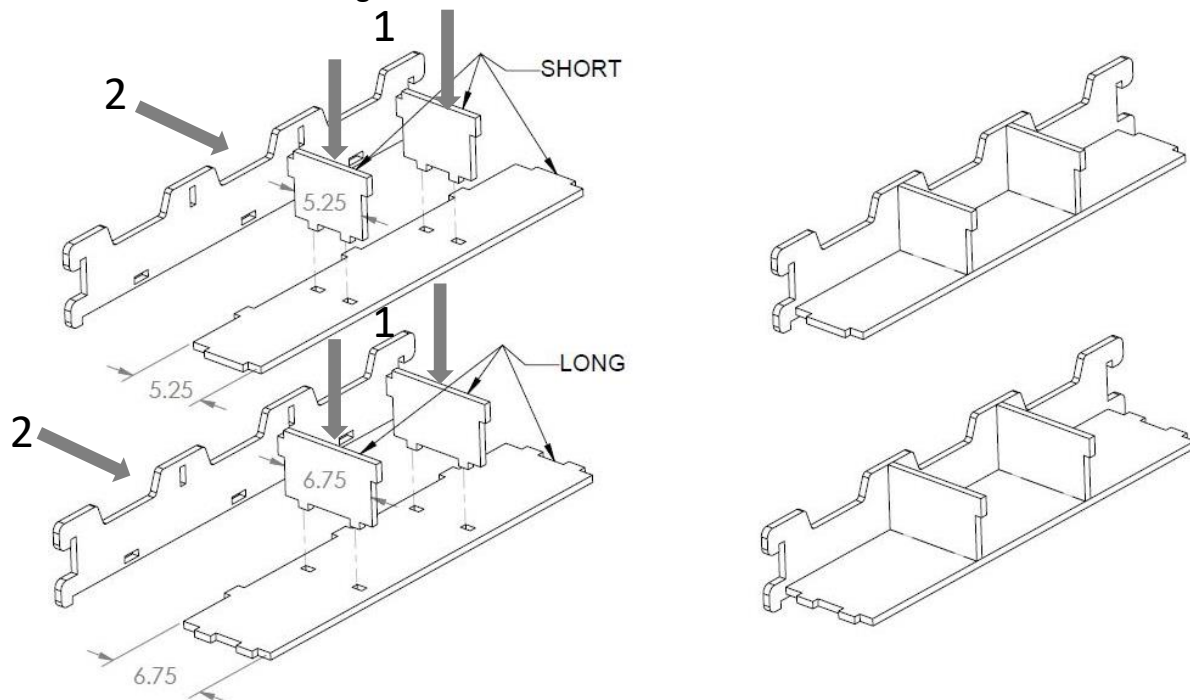

PANEL A

PANEL B
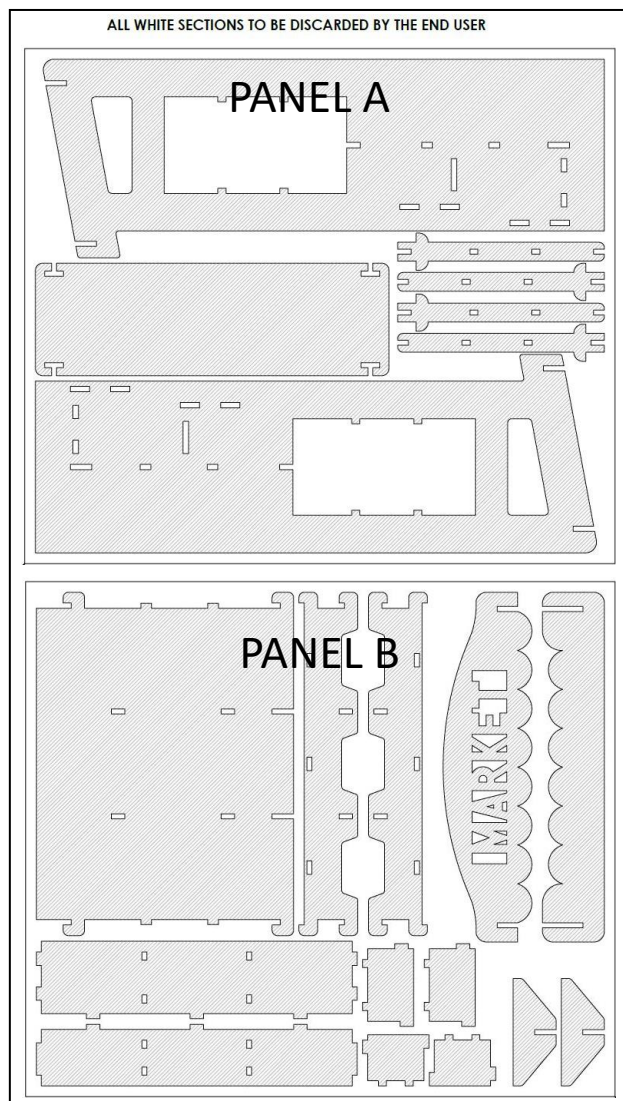

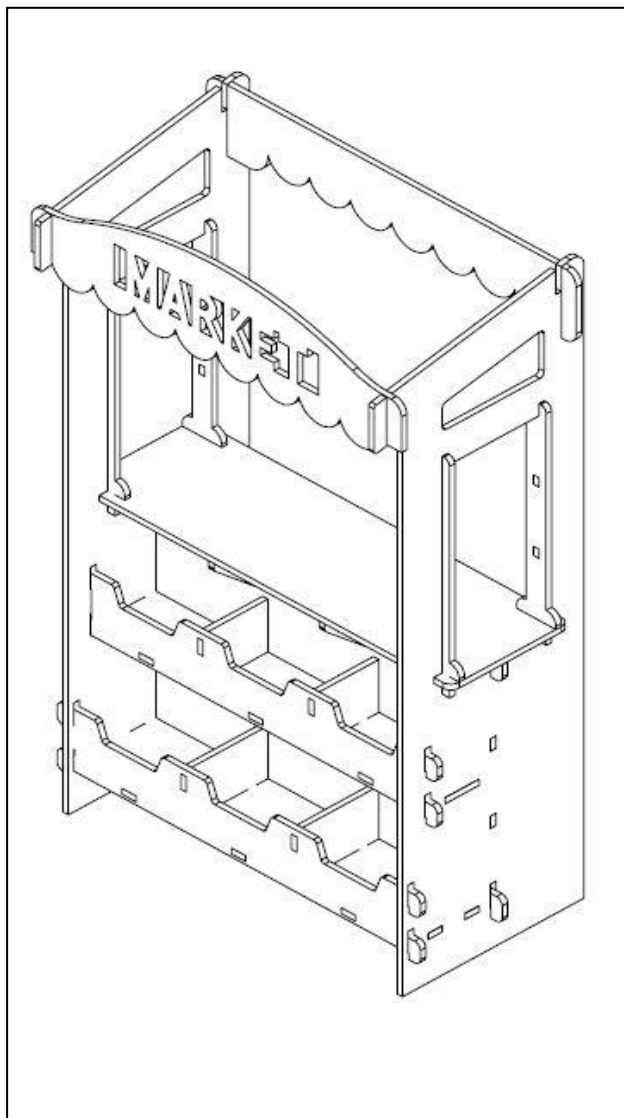

- Check that all components are accounted for and undamaged before assembling.
- Please assemble the product in a clean and dry area.
- Clean the product with a mild cleaner and a damp cloth.

If you have damaged or missing components,
please contact customer service at 1-800-328-1061

Assembly Instructions

1. Remove all PET felt sections shown in white on the supplied model specific maps. Take care when removing the components, the felt components can bend and crease if handled roughly.

2. Align the mating geometry as shown, the parts should mate without gaps. Note: there is a "short" and "long" shelf
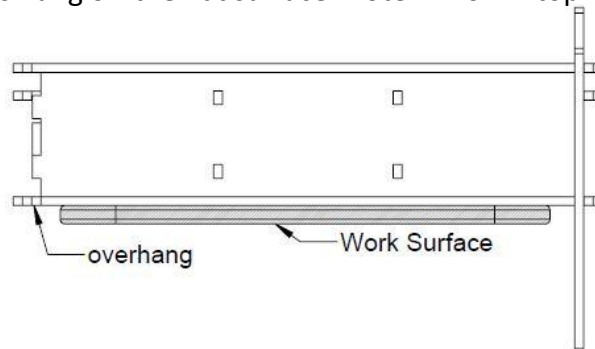

3. Lay "Front Panel" on a flat clean surface. Align the mating geometry as shown, the parts should mate without gaps.
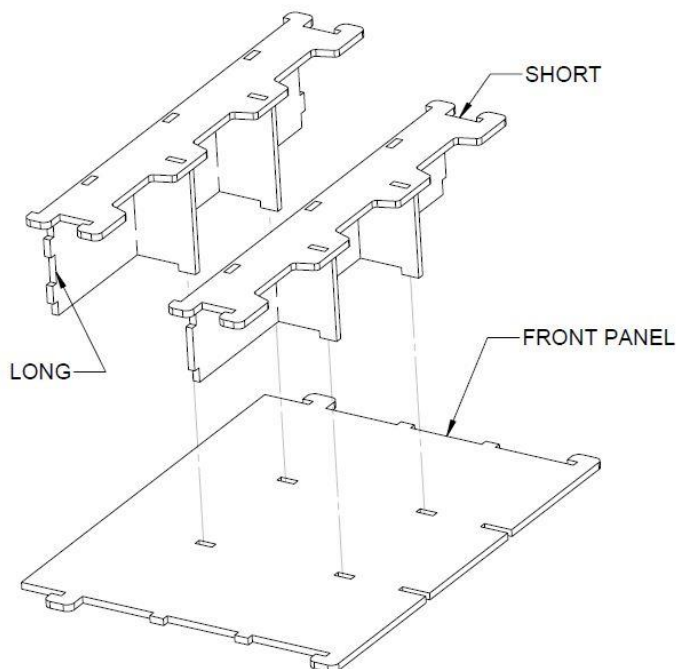

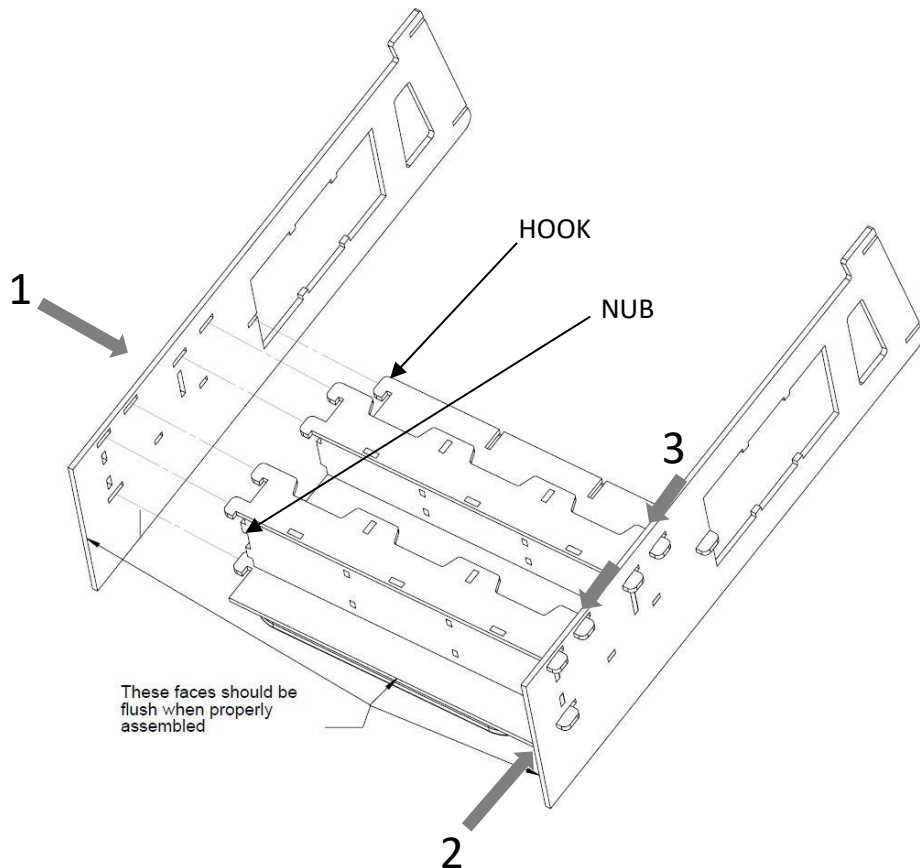

Assembly Instructions

6.   Position the previously assembled components so that one side of the remaining mating nubs and hooks hang off the flat surface. Note: A 20x27 top works great for this step.

7. Carefully align the side panels with all mating nubs. The side panel should slide over the hooks first then the nubs. An extra set of hands helps, do not force the parts. A gentle tap with the palm of your hand is sufficient to seat the parts.

8. Once all nubs are seated lock front panel hooks into place by sliding the side panel up and then press the shelf hooks down.
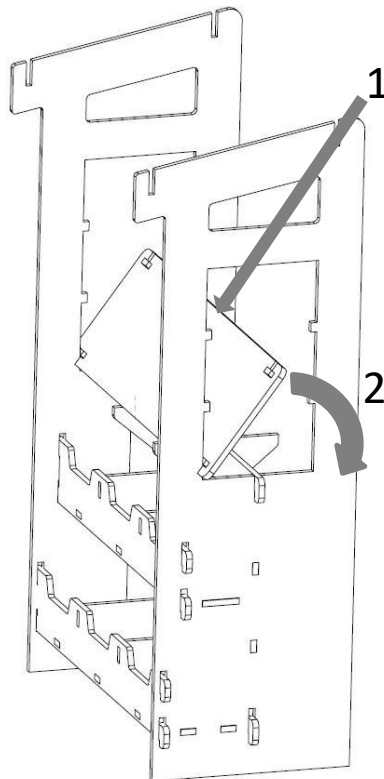

Assembly Instructions

9. Align the mating geometry as shown, the parts should mate without gaps.
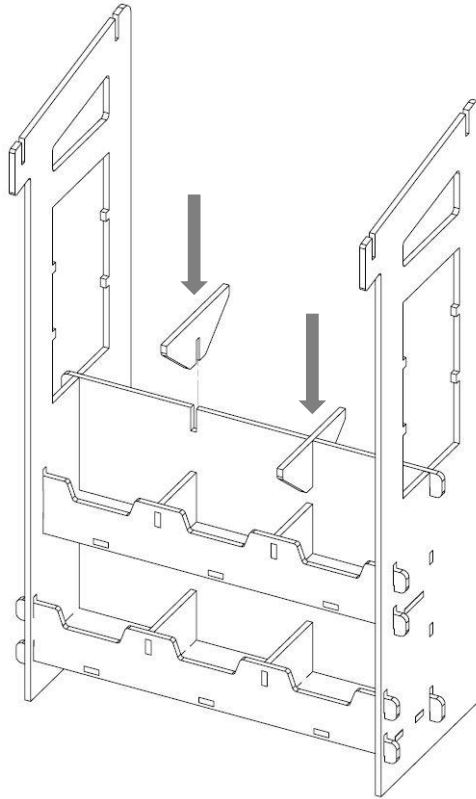

10. Install the Market countertop panel as shown and rotate into place.

Smith System®

11. Install the 4x window braces as show, first insert the nubs of the window brace into the mating geometry of the countertop and then rotate into place.

10. Install the two headers as shown.
