Model Shown: CMTLPM0

OVERVIEW

The Cascade Mobile Teacher Workstation offers a stable, mobile and versatile workspace with a bag hook and optional PET modesty panel plus the unique capabilities of Cascade storage. The workstation has a Sit-Stand top and lockable casters, allowing teachers to teach comfortably anywhere in the school. Optional left-handed or right-handed cup holders as well as a power strip are also offered.

MATERIALS

The 1 1/4" thick work surface consists of a 45 lb. density particle board core with a .030" high-pressure laminated surface and a .020" melamine backer sheet. The edge of the work surface features a bumper edge molding (choices listed below) that is mechanically fastened every 6 to 8 inches to assure a long lasting fit.

The base is constructed of fully welded 14 gauge steel tubing with a 1/4" steel plate and comes standard with 3" plate casters. Each plate caster takes 4 machine screws to fasten to the ped. The column is a combination of steel, aluminum, and plastic and contains a pneumatic height adjustment system. The storage pedestal is constructed of 22 gauge steel and consists of a Box/Box/File lockable storage system.
