Elemental® Student Desk

Elemental Hard Plastic Huddle Desk

MODEL#: ELHPHD

OVERVIEW

Elemental Student Desks come with a custom leg set that adjusts from 21.8"- 28.8" in 1" increments. Optional casters can be added - height maintains same adjustable range of 21.8" to 28.8".

MATERIALS

The hard plastic top is constructed of a hard plastic melamine. The tops conform to UL Greenguard Gold indoor air quality standard.

Elemental Student Desk leg sets are constructed of 14-gauge steel with a durable powdercoat paint finish in one of two colors. The legs are reinforced by a gusseted, 'spade' shaped, mounting plate. Legs come standard with a nylon base glide. When adding the optional caster pack, the leg insert tube is removed and flipped, revealing the caster end of the leg. The adjustability remains the same with either caster or glide installed.

PLASTIC TOP SURFACE OPTIONS
